

# SwingLift DC500/DC995

500kg davit winch

Easy to assemble

Light weight, robust construction and ease of use combine to provide users with a portable, effective and versatile load handling tool. Choose either 500kg or 995kg capacity, both available with electric hoists that simply plug into the vehicle or pump control box and additional boom extensions. A davit crane is the perfect choice for below ground handling when vehicle access is impractical.

## FEATURES

- 500kg or 995kg MWL
- Lightweight & portable
- Manufactured from high strength aluminium
- Robust construction
- Self-contained within a carry bag for ease when working on remote sites
